**AFTERMATH:** The German infantry attacked from the wooded draws to the north while the German armor came in from the east, across open ground. After their CO was killed the German infantry attack faded back into the wooded draws. When the tanks, attacking without infantry support, came into the range of the bazooka men two were knocked out. Meanwhile, Major Samuel L. Williams ran to the southwest of town to alert the tank destroyers in time to knock out several more tanks. With the German counterattack broken up Heiderscheid was now secure.
